Betsaida -- We just got this inquiry from reporter Laura Legere at the Scranton Times. Our desk statement would answer her questions. If we send it to her, should we send it to others? Please advise.

Hi Terri,

I understand that EPA representatives are delivering individual test results to Dimock families this week and I was wondering if you can update me on the timeline for the release of information:

Have all test results been distributed to Dimock residents whose wells were sampled? Have they been shared with Cabot and the PA DEP? Have the EPA results been compared with the split samples taken by Cabot and DEP?

Has the EPA determined next steps in the Dimock investigation?

Does the EPA still plan to release a public summary of the test results and if so, do you know when it will be released?

Thanks very much for your help. I'm hoping to write about this today for tomorrow.

Best,
